William Montelpare

• Professor, Applied Human Sciences, UPEI

Colleen Walton

• Assistant Professor, Applied Human Sciences, UPEI

Kerri Wheatley

• Research Coordinator, Food is Medicine Project, UPEI and MCPEI

The goal of the project is to make good healthy food more affordable and easier to get in your community. We need to know what you want and what your community needs.

Who: We will consult with 50-70 people over the age of 18 who live in Lennox Island and Abegweit First Nations.

What: Together we will discuss your thoughts, concerns and ideas about food in your in your community, traditional foods, and projects involving food.

Why: To create a 3-year project designed to improve access to good healthy food in your community.
